Look at a slide from a presentation about Email Security.
First, brainstorm tips for using email security.

Read the following text.
How many of these ideas did you think of?

No email communication is 100% secure. You should avoid sending credit card details by email. It's also not a good idea to send user names or passwords. You should only open attachments if you trust the sender. Be careful when you check emails in an internet café as public Wi-Fi is not always secure.

Writing for a Presentation

Content

- Include key points only
- Check info is correct

Language

- Use short simple words, phrases
- Miss out unnecessary words (a, the, and, because)
- Avoid contractions (doesn’t, can’t), use full forms instead
- Do not use personal expressions (I think you should).
- Use general words to express ideas (do not include your pin number, bank account number in an email)

Design

- Simple, clear, easy to read
- Attractive (pictures, photos, diagrams)

Look at this slide, what problems are there with this slide?

Data Protection at work

- There can sometimes be lots of probelsm with data protections at work.
- It's not a good idea to leave your work computer unlocked and you should never tell people in your office your computer password.
- Also you shouldn't leave lots of papers on your desk and go away form your desk for a long time.
- I don't think you should lend someone your work laptop either.
- Don't leave your work files or laptop in your car because someone might steal them.

Read the comments, decide if you agree or disagree. Then add one more comment about a topic that interests you.

- 'I think there's too much pressure to join professional networking sites these days.'
- 'Only older people worry about loss of privacy. Young people are happy to share their lives with each other.'
- 'People spend too much time online. They should spend more time with friends and family instead. Social networking destroys your social life!'

Write a presentation slide about using social media for work, study or in your social life.

1 What problems do people sometimes have with social networking?

2 What tips would you give someone about how to use social networking?
